# Create a PDF Dataset (Below) or Do a “Drag and Drop” PDF (Next Page)

The screenshot displays the Teamcenter 11 web client interface. The left sidebar contains navigation menus: Search, Quick Links, Open Items, History, Favorites, and I Want To... The 'I Want To...' menu has 'Create a Dataset' highlighted with a red circle. A red arrow points from this menu item to the 'New Dataset' dialog box. The main content area shows a search result for 'Item ID (72)' with a tree view containing 'PDMOUS-000000061-Name', 'PDMOUS-000000061', and 'PDMOUS-000000061/0-Name'. A red arrow points to the 'PDMOUS-000000061/0-Name' item with the text 'Highlight Object Revision'. The 'New Dataset' dialog box is open, showing the 'Name' field as 'PDMOUS-000000061/0', 'Tool Used' as 'PDF\_Tool', and 'Relation' as 'Specifications'. A red arrow points to the 'PDF' option in the dataset type list with the text 'Select dataset Type'. Another red arrow points to the 'Import' field's dropdown arrow with the text 'Select "...", add the Document and Pick OK'. The dialog box also has 'OK', 'Apply', and 'Cancel' buttons at the bottom.
